

PROVIDENCE SAINT JOSEPH FOUNDATION

# The New ER and Urgent Care

*Minutes Matter. Help us so we can help you.*

FROM HERE.  
FOR HERE.

## This is Our Community and *Minutes Matter*

On behalf of the dedicated physicians, nurses and caregivers of Providence Saint Joseph Medical Center, thank you for your interest in supporting our Emergency Services Campaign. This state-of-the-art Emergency Department and Urgent Care facility will profoundly expand our capacity to

provide emergency care to our communities, and transform our emergency and urgent care facilities. Providence Saint Joseph Medical Center and its caregivers have been serving our communities for more than 75 years. In the 1940s and born from a collaboration between local residents and business leaders like Walt Disney,

Providence Saint Joseph Medical Center rose on its present site as both a promise for the well-being of our residents and a reflection of the growing importance of Burbank, Toluca Lake and our surrounding neighborhoods. We believe everyone in our community deserves access to world-class health care close to home.

We are one of the busiest Emergency Services Departments in Los Angeles County.

Built in 1980, we have outgrown our current facility. To meet the surging demand for emergency care, we are planning for the future.

Funding an experience designed around your needs and comfort, **from your door to our doctors.**

- **More space for critical treatments:** almost three times the current space, from 13,800 square feet to 34,500 square feet.
- **On-Site Urgent Care:** 8,500 square feet of additional space for expedited treatment for less acute cases with reduced wait times located directly in front of the new emergency department.
- **Increased ability to treat more people:** nearly 72,000 visits per year to more than 93,000 visits annually in the emergency room and urgent care facilities.
- **More beds for our signature compassionate care:** from 24 beds and 8 hallway beds to 44 emergency department beds and 12 urgent care beds.
- **Improved triage:** separate and specialized waiting and treatment areas.
- **Sophisticated, on-site imaging and labs:** faster diagnostics, including x-ray, ultrasound and CT scans with vastly reduced wait times to expedite your care.

**Help  
today.**

# PROGRESS & TIMELINE

Construction will begin in late 2019 and conclude by the end of 2021.

We will be building the new facilities from the ground up, atop our open-air physician parking lot and adjacent grass area. The new location for the emergency department and adjacent urgent care facility are just a few feet away from the current emergency department and ensures that existing services will continue.

Building these structures from the ground up will bring improved efficiencies and a smoother construction workflow. Our community members will continue to receive the same outstanding care they know and appreciate until the day these facilities open, at which point our care will be elevated to a new level.

# EVERY DOLLAR MATTERS

**Providence Saint Joseph's  
Emergency Services Campaign  
has been prodigiously  
raising funds toward its \$78  
million campaign goal in order  
to see this historic project  
come to life.**

We received two transformational gifts to name both the emergency department and urgent care. The Jaromír Strizka estate has named our new emergency department and the Cusumano family has generously stepped forward to name our urgent

care center. We are incredibly grateful to these extraordinary families. Campaign fundraising efforts are divided into distinct committees working towards personalized goals. The campaign's Burbank, Toluca Lake, Entertainment and Foundations committees

are working hard to speed our progress. We are very pleased to report that the Walt Disney Company, Warner Bros. and NBCUniversal have each joined in committing seven-figure gifts to the campaign, inspiring other prominent community members.
