

**COVID IMPACT REPORT**  
**Providence Saint Joseph**

**Providence Saint Joseph Medical Center – Burbank:**

Total Amount of Funds Raised for COVID-19 Response: \$360,000

COVID-19 Response contributions have enabled us to purchase the following

- Two Solaris UV Light machines to explore new methods of COVID-19 disinfecting protocols
- The InTouch Telehealth System to allow COVID-19 patients to video conference with physicians on their care team, as well as with family members

Community Gifts in Support of Our COVID-19 Response Efforts:

- More than 55,130 masks
- More than 4,250 face shields
- Nearly 28,000 gloves
- More than 2,000 bottles of hand sanitizer
- More than 6,600 shoe coverings
- More than 7,000 meals provided to our caregivers

**“Thank you. Thank you for saving my life.”**

Gregg Garfield was our medical center’s first COVID-19 positive patient, and one of the earliest people to be diagnosed with coronavirus in the United States. Greg spent 64 days at our medical center and was given a 1% chance of survival at the outset of his infection.

Thanks to our Saint Joe’s Heroes and your steadfast support of our response efforts, we celebrate his story of survival while continuing the fight against COVID-19 for many others.
